- Switchable for approaching, receding or bi-directional use
- Lightweight and portable
- Low power K-band output for user safety
- Highly accurate
- Runs from vehicle cigar lighter or optional rechargeable battery pack

For use in — traffic surveys, ports, distribution centres, industry, quarries, bus depots, etc. etc.

Z-45_{CE} hand-held radar gun from Lion Laboratories

The Z-45 has been specifically designed for the EU market. It will accurately measure vehicle speeds and form a key element in reducing speeds and therefore accidents.

Transport organisations can reap significant benefits from a reduction in vehicle speed on and around their premises.

- Available in MPH & KPH
- Fastest vehicle detection mode
- Two window display (lock & target)
- RS232 port for printer and memory options
- Hard carry case supplied
- Battery pack available
